

2022

Scope 1 & 2

Waste

- Zero waste to landfill achieved

Electricity

- Purchased renewably sourced electricity from drax

2024

Scope 1 & 2

Energy Awareness Training

- Undertaking energy audits to highlight areas where employees can reduce energy usage

Air leak detection and reduction

- Initiated regular air leak inspections to detect and repair air leaks.

Scope 1 & 2

- Monthly shop floor meetings and internal auditing feedback to management and operators to identify areas of improvement.

- All annual data required by Manufacture2030 carbon reporting software has been recorded since 2021

- Reduced weight of packaging to reduce CO2e produced from transportation of products

2025 – 2030

Trials to commence for the removal of PVC from our blister packaging.

WRAP- Courtauld commitment 2030. IVCB agree to work towards our food waste, carbon and water targets

Scope 3

- Carbon emission reporting
- Increased engagement with suppliers in order to collate their sustainability figures

Scope 1 - 3

2030 Goals

- 42% reduction in Scopes 1 -3 by 2030, against a 2021 baseline, to fit a trajectory of 1.5C climate change.
- Equating to targets of no more than;

- Scope 1 - 2,492 tCO2e
- Scope 2 – 688 tCO2e
- Scope 3 – 14,517 tCO2e

2031 - 2050

Scope 2

Electricity

- Project plans in place to install a photovoltaic array of solar panels on the roofs of Site 2 and 4, to provide the majority of electricity needed

Scope 1 - 3

2050 Goals

- Net Zero in Scopes 1 – 3
- 90 - 95% reduction in CO2e for each scope
- Carbon removals and offsetting to neutralize any other CO2 emissions

2020

Scope 1 & 2

CHP generator installed

- >85% of electricity for Site 1

- An energy system that generates electricity and useful heat from natural gas source

2021

Scope 1 & 2

LED Lighting Overhaul

- 85% of all lighting replaced and LED lighting installed

2023

Scope 1 & 2

JRP Audit/report

- Net Zero Gap Analysis and outline strategy complemented to achieve Net Zero by 2050

ESG/Global members meetings

- Improve coordination on overall environmental impact of production and distribution

Water Audit

- Water management survey completed and actioned

Packaging

- Only Forest Stewardship Council approved wood used in packaging
- Increased usage of recycled plastic (PET) in packaging
